

GEORGE CLINKSCALES JR.

Software Engineer · (832) 441-0065 · GeorgeClinkScalesDev@proton.me · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

SUMMARY

Full stack engineer and co-founder of CH Studios LLC with three shipped App Store iOS apps and a production MCP server integration. I build scalable, AI-ready platforms from database architecture to payment processing, with hands-on experience across web, backend, and iOS.

PROFESSIONAL EXPERIENCE

Co-Founder & Developer · [CH Studios LLC](#) · Detroit, MI Apr 2026 – Present

- Building a multi-tenant SaaS web platform for Detroit small businesses across bakery, salon, and restaurant verticals, consolidating online ordering, staff scheduling, loyalty programs, and AI recommendations into one system.
- Architected an AI-accessible ordering system integrating Anthropic MCP and Google WebMCP, making client businesses queryable by Claude and Gemini directly from conversational AI interfaces.
- Leading product development across three verticals with full stack architecture responsibilities, from database schema to admin dashboard UX and client onboarding flows.

iOS / Android / Web Engineer · [Tripsetta](#) · Detroit, MI · (part-time contract) Apr 2026 – Present

- Hired to maintain and ship feature updates across iOS, Android, and web platforms for an early-stage travel startup, working directly with the founder across the full product surface.

Engineer Intern · We Change Community Consulting · Detroit, MI Feb 2026 – May 2026

- Shipped iterative features for a community organization iOS app in a cross-functional agile team alongside designers.

PROJECTS

[The Bakery Co.](#) · Node.js · Express · Supabase · Stripe · MCP · WebMCP · Subscriptions · Gift Cards. May 2026

- Built a full-stack bakery ordering platform with Node.js/Express, Supabase, and Stripe featuring an admin dashboard covering order management, inventory, revenue analytics, menu CMS, loyalty program, staff scheduling, coupon management, digital gift cards, and subscription billing, deployed to Render.
- Implemented MCP server using Anthropic SDK so customers can browse menus, place orders, and receive Stripe checkout links through Claude AI conversation, with webhook-driven order delivery to the admin dashboard.
- Shipped WebMCP the week Google announced it at I/O 2026, registering imperative tools via navigator.modelContext and declarative checkout attributes, enabling Gemini to query menu and cart data in Chrome with no API connection required.

[The Salon Co.](#) · Node.js · Express · Supabase · Stripe · Twilio May 2026 – Present

- Building salon vertical of CH Studios platform with appointment booking, stylist scheduling, automated SMS reminders, client formula storage, no-show deposit enforcement via Stripe, and rebooking automation.

[Detroit Sports AI Agent](#) · Python · Claude API · Agentic Tool-Use · Streamlit Apr 2026

- Built an agentic AI analyst using LLM tool-calling and few-shot prompt templates to orchestrate real-time REST API fetches and extract structured data from unstructured responses, deployed on Render with a Streamlit frontend.

[CoastCast](#) · FastAPI · CoreML · Swift Concurrency · SwiftUI · WidgetKit Mar 2026 – May 2026

- Built Python FastAPI backend for a 54-beach conditions platform with custom weighted scoring engine; shipped iOS frontend with on-device CoreML/XGBoost crowd prediction, 120+ parameterized Swift tests, and WidgetKit Live Activities.

OPEN SOURCE CONTRIBUTIONS

Streamlit Open Source Contribution · TypeScript · React · CSS-in-JS Apr 2026

- Submitted PR to streamlit/streamlit (#14864) adding border radius rounding to st.video and st.map components for visual consistency with Streamlit's design system.

Handmade Network Open Source Contribution · Go · HTML Templates · CSS Apr 2026

- Submitted PR to HandmadeNetwork/hmn (#37) resolving Go-template logic errors for featured post states and auditing typography utility classes to ensure design system consistency.

TECHNICAL SKILLS

Web & Backend: Node.js, Express, HTML/CSS/JS, Python (FastAPI/Flask), Supabase, PostgreSQL, Stripe, Twilio, REST APIs, Webhooks, Cron Jobs, Render (Deployment)

AI & ML: Anthropic MCP SDK, Claude API, WebMCP, Agentic Tool-Calling, Few-Shot Prompting, CoreML, XGBoost, ONNX, on-device inference, Ollama, Modelfile configuration

iOS Dev: Swift, SwiftUI, UIKit, Foundation, Apple Intelligence, SwiftData, MVVM, SpriteKit, CoreML

Tools: VSCode, Git, Claude Code, Docker, Xcode, TestFlight, Accessibility (VoiceOver/Dynamic Type)

EDUCATION

Engineer Participant · MSU Apple Developer Academy · Detroit, MI

Sept 2025 – May 2026

B.S. Horticulture · Colorado State University · Fort Collins, CO

Aug 2019 – May 2022
